NARRATIVE REPORT

☒ INTERIM☐ FINAL

K1 1. [] has designed, developed, and demonstrated a tracking light source that appears to be satisfactory in every respect. The sources are capable of producing better than 25,000 foot-lamberts of high quality illumination, and tracks the optics satisfactorily within areas of eight inches by fourteen inches on both sides of the split in the middle of the table. [] Project Manager, appears to be doing a very fine job with a development faced with severe physical constraints.

K1 2. The prototype light source, retrofitted to a GFE [] 1540 Light Table, is expected to be delivered and ready for testing and evaluation in mid-September.

3. Total Authorized Funds:

Original Contract
Overrun 2/18/72
Overrun 7/11/72
